Sugar Cane – Multi-Techniques

280 gsm · mould-made · 75% sugar cane fibre · 25% cotton rag

Lana Sugar Cane combines the high demands a universally useable artist paper has to meet with the responsible use of resources including renewable energy. For the production of this paper, Lana uses a so-called 'Bagasse' pulp that is extracted from the sugar cane production waste – while the cotton fibres come from recycled-paper remains of the paper production circuit. Thanks to its rough structure, Lana Sugar Cane is well suited as Mixed Media Paper for watercolour paintings, pastel drawings and acrylic pictures. Acid free and age resistant.
